

# Safety data sheet

according to Regulations (EC) 1907/2006 (REACH), 1272/2008 and (EU) 830/2015

## Baumit AntiSulfat

baumit.com

created on: 15/03/2018

Revision of the edition dated: 15.05.2015 (replacement for all previous editions)

Printed: 02.07.2018

### SECTION 1: Identification of the mixture and company

#### 1.1 Product identifier

Baumit AntiSulfat  
Additional commercial name: Baumit Sanova AntiSulfat

#### 1.2 Relevant identified applications of the mixture and applications advised against

Aqueous solution for the chemical treatment of harmful salts (see also product data sheet).  
Not to be mixed with other products.

#### 1.3 Details on the supplier that provides the safety data sheet

Name: Baumit GmbH  
Address: 2754 Waldegg, Wopfing 156  
Tel. no.: +43 (0) 501 888-0  
Fax no.: +43 (0) 501 888 1266  
Further information obtainable from: e-mail (expert): [office@baumit.com](mailto:office@baumit.com)  
Office hours: Mon to Thu 7:00 am to 4:00 pm and Fri 7:00 am to 12:00 pm

#### 1.4 Emergency telephone number

European emergency telephone number: 112  
Emergency telephone number: +43 (0)1 4064 343-0,  
Poison information centre at the 1st Medical University Clinic  
Währinger Gürtel 18-20, 1090 Vienna  
Availability: daily 24hr

### SECTION 2: Potential hazards

#### 2.1 Classification of the mixture

##### 2.1.1 According to Regulation (EC) no. 1272/2008

Hazard class	Hazard category
not applicable	

##### Hazard warnings

not applicable

#### 2.2 Label elements

##### 2.2.1 According to Regulation (EC) no. 1272/2008

not applicable

Signal word: not applicable

Hazard-determining components of labelling:

# Safety data sheet

according to Regulations (EC) 1907/2006 (REACH), 1272/2008 and (EU) 830/2015

## Baumit AntiSulfat

baumit.com

created on: 15/03/2018

Revision of the edition dated: 15.05.2015 (replacement for all previous editions)

Printed: 02.07.2018

### Hazard warnings

not applicable

### Safety instructions

P101: If medical advice is required, please keep the packaging and label handy.

P102: Keep out of reach of children.

### Biocidal Products Regulation (528/2012)

not applicable

2.3 . Other hazards

Results of the PBT and vPvB assessment: not applicable

## SECTION 3: Composition/information on components

### 3.1 Substances

Not applicable since it is a mixture.

### 3.2 Mixtures

#### Hazardous components

Identification	Content	CAS-no.	EC-no.	Registration number	Classification according to Regulation (EC) no. 1272/2008	
Phosphoric acid	5.0 - 10.0%	7664-38-2	231-633-2	015-011-00-6	H314	Skin Corr. 1B

## SECTION 4: First-aid measures

### 4.1 Description of the first-aid measures

#### General information

Help quickly. No special personal protective equipment is required for first responders.

#### Inhalation

Supply fresh air. Consult a doctor in case of complaints.

#### Skin contact

In case of contact with the skin, wash with water and soap. Remove soaked clothing, shoes, watches, etc. Clean these thoroughly before reuse. Consult a doctor in case of skin complaints.

# Safety data sheet

according to Regulations (EC) 1907/2006 (REACH), 1272/2008 and (EU) 830/2015

## Baumit AntiSulfat

created on: 15.03.2018

Revision of the edition dated: 15.05.2015 (replacement for all previous editions)

Printed: 02.07.2018

### Eye contact

Do not rub the eye dry because mechanical strain may cause additional damage to the cornea. If applicable, remove contact lenses and rinse the eye immediately with open eyelids under running water for at least 20 minutes to remove all particles. If possible, use an isotonic eye-rinsing solution (0.9% NaCl). Always consult an occupational health professional or ophthalmologist.

### Swallowing

Do not induce vomiting. If conscious, rinse mouth and drink plenty of water in small sips. Consult a doctor or POISON INFORMATION CENTRE.

### Information for the doctor

No long-term effect is known.

## 4.2 Most important acute or delayed symptoms and effects

### Eyes

Eye contact can cause severe and possibly permanent eye damage.

### Skin

Product can have an irritating effect on moist skin (as a result of sweating or air humidity) due to prolonged contact. Contact between the product and moist skin can cause skin irritations or allergic reactions. For further information, see contact details (1).

### Respiration

Inhalation of aerosol mist can result in injury to health during mechanical handling.

### Environment

The product, when used normally, is not hazardous for the environment.

## 4.3 Information on immediate medical attention or special treatment

If a doctor is consulted, please present this safety data sheet.

### Information for the doctor

Symptomatic treatment.  
No information available.

## SECTION 5: Firefighting measures

### 5.1 Extinguishing agents

# Safety data sheet

according to Regulations (EC) 1907/2006 (REACH), 1272/2008 and (EU) 830/2015

Revision of the edition dated: 15.05.2015 (replacement for all previous editions)

Printed: 02.07.2018

The product is not flammable as delivered. Fire extinguishing agents and fire fighting measures are to be coordinated in accordance with the surrounding fire (water spray jet, dry chemical powder, carbon dioxide, alcohol-resistant foam).

## 5.2 Special hazards arising from the mixture

No further relevant information available.

## 5.3 Information for fire fighting

In case of fire, wear a self-contained breathing apparatus if necessary.

## SECTION 6: Accidental release measures

### 6.1 Personal safety precautions

#### 6.1.1 Non-emergency personnel

Wear protective clothes, as described under section 8. Follow the instructions for safe handling, as described under section 7. Potential danger of slipping on leaked product.

#### 6.1.2 Emergency personnel

Emergency plans are not required.

### 6.2 Environmental protection measures

Do not allow to enter the sewer, surface water or groundwater. Inform the competent authorities in case of contamination.

### 6.3 Procedures for cleaning

Absorb spilled product with liquid-binding material (such as sand, soil, diatomaceous earth, vermiculite) and dispose of according to the statutory provisions (see section 13).

### 6.4 Reference to other sections

Please note sections 7, 8 and 13 for further details.

## SECTION 7: Handling and storage

### 7.1 Precautions for safe handling

Please follow the recommendations in section 8. Ensure good ventilation. Wash hands before breaks and after work. Do not eat, drink or smoke while working. Avoid contact with skin and eyes. Wear protective clothes and safety goggles. Clean contaminated protective clothes and protective gloves before reuse.

### 7.2 Conditions for safe storage, including any incompatibilities:

Store in original container. Carefully reseal opened containers. Protect from frost or direct sunlight. Keep out of reach of children.

## Baumit AntiSulfat

created on: 15.03.2018

Revision of the edition dated: 15.05.2015 (replacement for all previous editions)

Printed: 02.07.2018

Storage class: 10

### SECTION 8: Limitation and monitoring of exposure/personal protective equipment

#### 8.1 Control parameters

##### 7664-38-2 Phosphoric acid

Threshold values	
Occupational exposure limit (EU)	2E mg/m <sup>3</sup>

#### 8.2 Exposure limitation and monitoring

##### 8.2.1 Additional information about the design of technical facilities

Ensure good ventilation during processing.

##### 8.2.2 General protective and hygienic measures

Do not eat, drink or smoke while working. Wash hands and, if applicable, shower, use skincare products before breaks and after work. Avoid contact with skin and eyes. Clean contaminated clothes, shoes, watches, etc. before reuse.

#### Skin protection / body protection

Preventive use of skincare products is recommended. Use nitrile rubber gloves (in accordance with the specifications of the EC-Directive 89/686/EWG). Breakthrough time 480 min. / Minimum thickness 1.5 mm Leather gloves are not suitable due to their water permeability.

#### Facial/eye protection:

Use protective goggles with side guard according to EN 166.

#### Respiratory protection

Not necessary during manual processing. Ensure sufficient ventilation. Use particle filter P2 according to EN 143 during machine processing.

#### 8.2.3 Environmental exposure limitation and monitoring

### Air

No special measures are required.

### Water

Do not allow the product to enter groundwater or sewage system due to its acidic pH-level. Inform the competent authorities in case of release.

### Soil

Do not allow the product to enter the soil due to its acidic pH-level. Inform the competent authorities in case of release.

## SECTION 9: Physical and chemical properties

### 9.1 General information

Appearance:	pasty
Aggregate state:	liquid
Colour:	colourless
Odour	characteristic
Odour threshold	unknown
pH-level:	approx. 2.5
Melting point:	not applicable
Boiling point:	100°C
Flash point:	not applicable
Evaporation rate:	not applicable
Flammability	non-flammable
Upper/lower inflammability or explosion limits:	no data available.
Vapour pressure:	23 mPa
Vapour density:	no data available.
Relative density	approx. 1.04 kg/dm <sup>3</sup> at room
Water solubility:	completely miscible
Distribution coefficient: n-octanol/water:	not determined
Auto-ignition temperature:	not auto-igniting
Decomposition	no data available.
Viscosity	not determined
Explosive properties:	not explosive
Oxidizing properties:	not applicable

### 9.2 Other particulars

No data available.

## SECTION 10: Stability and reactivity

**Safety data sheet**  
according to Regulations (EC) 1907/2006 (REACH), 1272/2008 and (EU) 830/2015  
**Baumit AntiSulfat**

baumit.com

created on: 15.03.2018

Revision of the edition dated: 15.05.2015 (replacement for all previous editions)

Printed: 02.07.2018

### 10.1 Reactivity

No hazardous reactions are known.

### 10.2 Chemical stability

Stable under normal environmental conditions.

### 10.3 Possibility of hazardous reactions

No hazardous reactions are known. Reactions with light metal forming hydrogen.

### 10.4 Conditions to be avoided

Protect from frost and direct sunlight. Do not allow to enter the sewer, surface water or groundwater.

### 10.5 Intolerable materials

Strong acids and bases and strong oxidizing agents

### 10.6 Hazardous decomposition products

No formation of hazardous decomposition products in case of proper application and storage.

## SECTION 11: Toxicological data

### 11.1 Information on toxicological effects

Hazard class	Cat.	Effect	Reference
Acute toxicity - dermal	—	Based on the available data, the classification criteria are not met.	—
Acute toxicity inhalation	—	Based on the available data, the classification criteria are not met.	—
Acute toxicity - oral	—	Based on the available data, the classification criteria are not met.	—
Caustic /irritant effect on the skin	—	Based on the available data, the classification criteria are not met.	—
Severe eye damage/irritation	—	Based on the available data, the classification criteria are not met.	—
Skin sensitisation	—	Based on the available data, the classification criteria are not met.	—
Respiratory tract sensitisation	—	Based on the available data, the classification criteria are not met.	—
Germ cell mutagenicity	—	Based on the available data, the classification criteria are not met.	—
Carcinogenicity	—	Based on the available data, the classification criteria are not met.	—
Reproductive toxicity	—	Based on the available data, the classification criteria are not met. No indications based on experiences on human beings	—

Hazard class	Cat.	Effect	Reference
specific target organ Toxicity in case of one-time exposure	—	Based on the available data, the classification criteria are not met.	—
specific target organ Toxicity in case of repeated exposure	—	Based on the available data, the classification criteria are not met.	—
Aspiration hazard	—	Based on the available data, the classification criteria are not met.	—

### Additional information

The product as such is not tested. The mixture is classified according to appendix I of Regulation (EC) 1272/2008 (section 2 and section 3).

## SECTION 12: Environmental information

### 12.1 Toxicity

The product was not tested. The information is derived from the properties of the individual components.

### 12.2 Persistence and decomposability

No data available.

### 12.3 Bioaccumulative potential

No data available.

### 12.4 Mobility in the soil

No data available.

### 12.5 Results of the PBT and vPvB assessment

The mixture does not contain components that are classified as persistent, bioaccumulative and toxic (PBT) or as very persistent, very bioaccumulative (vPvB).

### 12.6 Other harmful effects

Do not allow to enter the sewer, groundwater or other surface waters.

## SECTION 13 Disposal instructions

### 13.1 Waste treatment process Disposal:

Dispose of partially emptied and non-consumed residual amounts as hazardous waste. Do not dispose of with household rubbish.

**Safety data sheet**  
according to Regulations (EC) 1907/2006 (REACH), 1272/2008 and (EU) 830/2015  
**Baumit AntiSulfat**

created on: 15.03.2018

Revision of the edition dated: 15.05.2015 (replacement for all previous editions)

Printed: 02.07.2018

Move small residual amounts with an excess of gypsum water, leave for 1 day and discharge into the sewer system.

Send completely emptied packaging properly for disposal.

**ÖNORM S2100**

52102 Acids and acid mixtures, inorganic

**European List of Waste Materials**

20 01 14 Acids

15 01 02 Packaging made from plastic

**SECTION 14: Information on transport**

**14.1 UN-number**

Not applicable

**14.2 Proper UN shipping name**

Not applicable

**14.3 Transport hazard classes**

Not applicable

**14.4 Packaging group**

Not applicable

**14.5 Environmental hazards**

Not applicable

**14.6 Special precautions for the user**

Not applicable

**14.7 Transport in bulk according to appendix II of the MARPOL Convention 73/78 and according to the IBC-Code**

Not applicable

**SECTION 15: Information on statutory regulations**

**15.1 Safety, health and environmental protection regulations/specific statutory regulations for the mixture**

Water hazard class: 1 slightly hazardous for water

**15.2 Chemical safety assessment**

A chemical safety assessment was not performed.
